Mimasa a COZZINI PRIMEEdge company

COZZINI PRIMEEdge
CUTTING EDGES AND SHARPENING SOLUTIONS

FULL HYGIENE SOLUTIONS

With 1000's of washing and hygiene solutions in operation globally, Mimasa is an industry leader specializing in advanced, custom made washing solutions for the food processing, food distribution and pharmaceutical industries. Mimasa has built its well-deserved reputation on the principles of quality, innovation, automation and custom design. Founded in 1986 Mimasa has been designing and implementing washing and drying systems for crates, pallets, bins, vats, molds, trolleys, racks and personnel hygiene equipment.

Mimasa was acquired by COZZINPRIME in 2015. Combined with COZZINPRIME, MIMASA has the technologies, innovation and outstanding service to solve and support your washing and hygiene needs.

CRATE WASHERS

Machines specially designed to work in 24/7 production plants. Contact us to discuss a customized solution according to your requirements.

BUGGY AND BIN WASHERS

Washing cabinets in batch system or continuous tunnel consisting of different stages (prewash, wash, rinse, etc.). The solution is studied according to customer needs.

PALLET WASHERS

Mimasa offers multiple solutions to clean pallets having either horizontal or vertical feeding. Capacity up to 300 pallets/h including wash and blow-off.

VAT AND CONTAINER WASHERS

We have multiple solutions to wash containers, bins, vats, palbox, boxes, etc. Any machine can be customized in order to be adapted to the production needs and space of each client.

KNIFE AND GLOVE WASHERS

TROLLEY AND RACK WASHERS

Mimasa provides all kind of solutions for washing and disinfecting any kind of trolley or rack. Mimasa can develop washing solutions to clean different elements having multiple sizes and shapes.
